

Outside groups run themselves.

Give every outing organizer and league coordinator their own tool, under your course's brand.

Your shop stops handling their money

Dues and entry fees go to the organizer's own Stripe account. Not to you, not to us.

Your brand, their event

The event page and emails carry the course's logo and colors. Organizers get a professional setup that looks like it came from you.

Phone scoring from the cart

Players score in a phone browser with nothing to download. Standings post that night.

Reminders and results, automatic

Tee time emails, day of reminders, and results go out on their own, so your staff isn't the help desk.

Leagues and your own events

Season long leagues, member guests, club championships, and league nights all run on the same tool.

PRICING

Starter \$79/mo or \$399/yr · Pro \$199/mo or \$1,199/yr · Enterprise \$499/mo or \$3,490/yr

Zero platform fees on every plan. Registration money goes to your own Stripe account. Stripe processing is the only cost, and it's Stripe's, not ours.

See it in eight minutes.

fairwaygolfos.com/demo

Organizers pay from \$79/mo. Courses that want it under their own brand for every outing should ask about Enterprise.
